Norway, ME 04268

Why Do You Need Gundrilling?

Gundrilling is more efficient than twist drills for holes where the depth to diameter ratio exceeds 10. You get superior hole size, finish and roundness in a single pass.

Why Do You Need Grover Gundrilling?

Your requirements from your customers have gotten more difficult - lead times, hole size, material, hole finish...

You need a company that is continuously improving its ability to meet increasingly difficult hole tolerances and customer delivery demands.

We Specialize in Difficult Holes

- ◆ Thin Walls
- ◆ Tight Concentricity
- ◆ Castings
- ◆ Intersections
- ◆ Profiled Holes
- ◆ Finishes to 16 RMS
- ◆ ID Size +/- 0.0005

We Are Committed to Quality

- ◆ ISO 9001:2000 Registered
- ◆ Dedicated Quality Manager
- ◆ Two ASQ Certified Quality Technicians
- ◆ Two Brown and Sharpe CMMs

Service Second to None

- ◆ Fast Turnaround on Quotes and Jobs
- ◆ Email Your Prints
- ◆ Engineering Plotter
- ◆ 3-D Solid Model CAD (Solidworks)
- ◆ Call us and talk to our gundrilling experts

We Already Service Your Industry

- ◆ Aerospace
- ◆ Power Gen
- ◆ Nuclear
- ◆ Injection Molding
- ◆ Plastics
- ◆ Semiconductor
- ◆ R&D
- ◆ Superconducting
- ◆ Medical Devices
- ◆ Precision Tubing
- ◆ Oil Exploration

We Are Closer Than You Think!

Ask us about one day freight service in the Northeast and two day service as far as Ohio and North Carolina!

Phone: 800-743-8189 ◆ Fax: 207 743-7083
